

Summary

Goal oriented, skilled worker and team player always seeking to grow and do more. Excels in collaborative environment. Compulsive learner, desiring to push self and contribute to the team at a high level. Proven track record of being highly adaptable and able to assimilate new technologies. Strong communicator with experience in trouble shooting, leadership and customer service. Plays extremely well with others. Excited to join a company who shares my ideals passion for team growth and quality work.

Skills

Python

Solid grasp of Django with a MySQL database.

Solid OOP skills.

GitHub & AWS

Have worked in teams that use GitHub to branch and merge projects. Used AWS (EC2) to deploy projects.

MEAN

JavaScript and ES6 skills.

Solid understanding of Angular 2 with the use of Bootstrap.

Solid understanding of MongoDB and Node.js with Express and Mongoose.

CMS

Understand the basics of WordPress and Craft CMS.

iOS

Understand the basic fundamentals of creating simple CRUD apps in swift/xcode.

Front-End

Have been responsible for the front-end on all projects. Worked with HTML5, CSS3, & JS, JQuery, Bootstrap, Normalize, Masonry, and PhotoShop.
