Summary

I'm a skilled worker, a team player, and goal driven. I love to work for a company or business whose vision and ideals match with mine. If I can see the value you give to others and/or the world and I believe in your vision then you can expect me to be a loyal employee for years to come. I'm consistently learning new skills in the field and working on new projects. I pride myself in becoming highly skilled in programming and will continue to improve my ability. There's always more work to be done.

Skills

Python
Solid grasp of Django with a MySQL database.
Solid OOP skills.

GitHub
Have worked in teams that use GitHub to branch and merge projects.

MEAN
JavaScript and ES6 skills.
Solid understanding of Angular 2 with the use of Bootstrap.
Solid understanding of MongoDB and Node.js with Express and Mongoose.

iOS
Understand the basic fundamentals of creating simple CRUD apps in swift/xcode.

Algorithms
Good at breaking down problems into simple step-by-step solutions.
Complete at least 3-4 algorithms a week.

Professional Experience

MEAN PROJECT – *SOCCER SEASON SIMULATION* – IN PROGRESS

- Web site that simulates a season of the English Premier League.
- Tasks Completed – Database of 20 teams and all of their players, algorithm that sets up a season schedule for 380 games, algorithm that simulates a game of soccer (Python).
- To Do – Algorithm that simulates a game of soccer (JavaScript), algorithm for updating each team's roster for each week.
- Future Goal – Add a fantasy league element to the site.

MEAN PROJECT – *SOCCERZONE*

- Website designed for local soccer fans to meet up, create teams and events, and communicate with their community.
- Makes Use of the Google Maps API to the location of local events and teams.
- Login/Register stores users in a MongoDB database using bcrypt for password encryption.
- Fully responsive web design for viewing on all devices.
- Use of GitHub. Deployed via Amazon Web Services.

Work Experience

ASSISTANT MANAGER & SERVICE TECHNICIAN – WellBeing Hygiene- Jacksonville, FL – 2014-2016

- Worked at WellBeing, a company who specialized in scent and hygiene products, whose accounts included: FSU, FAMU, Walt Disney Theme Parks & Resorts, and Universal Studios.
- Responsibilities as Assistant Manager included: Organizing monthly service routes, assisting management with future company planning and goals, managing inventory, and filing and copying all company receipts in region.
- Responsibilities as Service Technician included: Installing and servicing scent and hygiene products such as: Air fresheners, hand sanitizers, soap dispensers, and auto flush/clean units.
